Subject: RE: Oregon CZARA, Pesticides and Riparian

Thanks, Erik. I'm talking with Alan tomorrow to focus the question, so it might not be as big of a workload before June 30. And I'll take what I can get. So let's just talk next Tuesday, and we'll take it from there.

Teresa, I know that Alan is asking you to work on a couple of other CZARA forestry-related issues. But if you're interested on working on this and have time, please let me know, and I can add you to the Tuesday AM invite where we'll go over the work that needs to be done and who's available to do what.

Thanks for all the support! - Jenny

Subject: Oregon CZARA, Pesticides and Riparian

Jenny, Alan and Teresa,

I'm including our 2011 comparative assessment of aerial pesticide requirements as a background document that could be helpful for this process.

Also, a quick note on capacity. Between now and June 30th I'll be in the office 8 work days. Of those, at least half are already committed to ongoing work. In other words, I have about 3 days to work on this. Will that be enough to meaningfully contribute?

Beyond June 30th is another matter, just wanted to be clear about what is possible in the next few weeks.
